Recommendation:

That the Board approve reimbursements from the Deferred Compensation Plan (DCP) Reserve Fund to the City Attorney in the amount of **\$23,088.20** for staff providing direct support of the DCP during the quarter ending September 30, 2023.

Discussion:

A. Quarterly Staffing Reimbursements – Third Quarter 2023

The proposed reimbursements identified in this report include the total staffing costs (direct and indirect – net method¹) of City Attorney positions providing direct support for the DCP during the quarter beginning July 1, 2023 and ending September 30, 2023 as follows:

Summary of Staffing Cost Reimbursements for Third Quarter 2023 (July 1, 2023 - September 30, 2023)	
City Attorney Direct Costs Net Method	\$ 13,262.98
City Attorney Indirect Costs Net Method @ 74.08%	\$ 9,825.22
Total Reimbursement to City Attorney	\$ 23,088.20

¹ Staff uses two methods for reimbursement of staffing costs. The gross method is used for employees charging 100% of their time to the DCP. Funding for positions fully dedicated to the DCP was realigned from the General Fund to the DCP Trust Fund effective July 1, 2021 (Board Report [21-58](#)) and accordingly accounting and funding reconciliation for these positions is now administered internally between DCP staff and the Personnel Department's Accounting section (Board approval of reimbursements for these fully-dedicated positions is no longer required). The net method is used for employees who do not charge 100% of their time to the DCP, and is billed on a quarterly basis. The distinction between the two is that a Compensated Time Off (CTO) rate, which accounts for non-working hours such as sick and vacation time, is applied to the net method but not applied to the gross method (since compensated time such as vacation and sick time are already captured in gross salary). The gross method is used to reimburse the full-time Personnel Department staff fully dedicated and 100% supporting the DCP (one Defined Contribution Plan Manager; two Benefits Analysts; one Benefits Specialist). The net method is used to reimburse City Attorney staff who are partially dedicated to the DCP.

City Attorney staff support services are provided to the DCP by one Deputy City Attorney and one Paralegal on an as-needed basis.

The calculation for salary reimbursements in this report for City Attorney staff partially dedicated to the DCP includes direct costs (actual salary costs for all positions presently supporting the DCP) and indirect costs as calculated according to the City Controller Special Rates for Indirect Cost Centers (Special Rates). These Special Rates are established on a fiscal year basis. Unique rates are identified by department categories. The most recently published rate is Special Rates 45 for Fiscal Year (FY) 2022-23, which identifies the staffing reimbursement percentage for the City Attorney is **74.08%** for net method reimbursement.

Calculation details of the Third Quarter 2023 salary cost reimbursements including quarterly activity in the DCP’s revenue and expenditure accounts are provided in **Attachment A**.

B. Reserve Fund Projection

Pursuant to Los Angeles Administrative Code Division 4, Chapter 14, all of the City’s internal administrative costs are required to be paid by participant fees. Two accounts are used to pay expenses: (1) an account held with the Third-Party Administrator (TPA Fund), which acts as a repository for participant fees and from which most DCP expenses are paid; and (2) an account held within the City (Fund 896), from which office and administrative expenses, travel, and equipment purchases are made. Together, these two accounts comprise the DCP Reserve Fund.

To maintain stability within the DCP Reserve Fund and participant fees, the Board has established a target Reserve Fund balance of 50% (or six months) of annual DCP operating expenses. Each quarter, staff submits its accounting and recommendations for reimbursing administrative costs and the long-term resource projection is updated using assumptions for key variables that have been considered by the Board. This information is generated for the Board to compare the long-term projected Reserve Fund balance to the target Reserve Fund balance.

The Board last reviewed and approved long-term assumptions for DCP revenues and expenditures at its September 19, 2023 meeting, following a fee review and recommendations submitted by the DCP Plan Governance and Administrative Issues Committee. The current key variables used in long-term projections are summarized below:

<i>Expenses Inflation Adjustment Factor</i>	<i>Enrollment Adjustment Factor</i>	<i>Asset Growth Adjustment Factor</i>	<i>Stable Value Funds Interest Assumption</i>	<i>Basis Points Charged Against Participant Accounts</i>	<i>Fee Cap</i>	<i>Personnel Avg. Special Rate</i>	<i>City Attorney Avg. Special Rate</i>
3.0%	3.0%	5.5%	2.0%	0.09%	\$115	85.0%	85.0%

With each quarterly review, staff provides a ten-year projection of the DCP Reserve Fund balance. Fluctuations in overall DCP assets can have a significant impact on projections of future Reserve Fund balances. Following is the rolling ten-year forecast of the DCP Reserve Fund balance updated with data as of September 30, 2023. As indicated in the chart, the Reserve Fund balance is projected to be above the target reserve over the entire ten-year period. The lowest projected surplus amount above the target Reserve Fund balance is approximately **\$5.59 million** in 2024, increasing to approximately **\$7.31 million** in 2033. The

lowest difference between the projected surplus and the target Reserve Fund balance is approximately **\$3.90 million** in 2026, increasing to approximately **\$5.10 million** in 2033.

At its meeting on September 19, 2023, the Board discussed future options for addressing the surplus, and approved for two regular position authorities² to be submitted for consideration in the City’s 2024-25 proposed budget. Should the position authorities be approved and included in the City’s budget, the Board has requested the hiring of additional staff for these positions to occur subsequent to further review of the long-term financial impact to the DCP 10-year Reserve Fund projection.

* For indirect costs, CAP 45 (Fiscal Year 2022-23) is utilized. City Attorney indirect costs are reimbursed at 74.08% and Personnel Department indirect costs are reimbursed at 78.02%.

* *Partially Dedicated Staff - City Attorney*
 (1) Deputy City Attorney IV (25% of time).
 (1) Legal Assistant (40% of time).

* *Full-Time Staff, 100% Dedicated*
 (1) Defined Contribution Plan Manager
 (2) Benefits Analyst
 (1) Benefits Specialist

* Two methods are used for reimbursement of staffing costs. The **gross method** is used for employees charging 100% of their time to the DCP, which costs are reimbursed to the Personnel Department at fiscal year end. Funding for positions fully dedicated to the DCP was realigned from the General Fund to the DCP Trust Fund effective July 1, 2021 (Board Report 21-58) and accordingly accounting and funding reconciliation for these positions is now administered internally between DCP staff and the Personnel Department's Accounting section (Board approval of reimbursements for these fully-dedicated positions is no longer required). The **net method** is used for employees who do not charge 100% of their time to the DCP, which costs are reimbursed on a quarterly basis. The distinction between the two is that a Compensated Time Off (CTO) rate, which accounts for non-working hours such as sick and vacation time, is applied to the net method but not applied to the gross method (since compensated time such as vacation and sick time are already captured in gross salary).
